Gun Control

- This concept about gun control is a very important thing to make a great change on public safety. Gun control needs more laws and not ignore it because if you don't keep track of the incidents it will repeat itself
- Guns are a harm to society because there are a lot of incidents involving children and guns left unattended by irresponsible parents with no experience with caring for children.
- Too many criminals purchase guns legally and use them to commit crimes. Background checks and mandatory waiting periods help to determine criminals while negligibly inhibiting us.
- The only people that should have guns legally is police and people that have no criminal history and are clean from any kind of bad substances.
-

In 2014, there were 586 fatal firearm accidents in the United States, constituting 0.4% of 136,053 fatal accidents that year:

Discrimination-Sayda

Race discrimination involves treating someone (an applicant or employee) unfavorably because he/she is of a certain race or because of personal characteristics associated with race (such as hair texture, skin color, or certain facial features). Color discrimination involves treating someone unfavorably because of skin color complexion.

- The law forbids discrimination when it comes to any aspect of employment, including hiring, firing, pay, job assignments, promotions, layoff, training, fringe benefits, and any other term or condition of employment.
- can be illegal if it has a negative impact on the employment of people of a particular race or color and is not job-related and necessary to the operation of the business
- The EEO laws prohibit punishing job applicants or employees for asserting their rights to be free from employment discrimination including harassment.

I am against discrimination because I believe everyone should be treated equally no matter the differences they see in another person. According to the first amendment it states, "or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances". This amendment not only tells me that everyone should have the freedom of speech, but it shows me that everyone should have the freedom of everything starting from the way they want to dress to how they react.

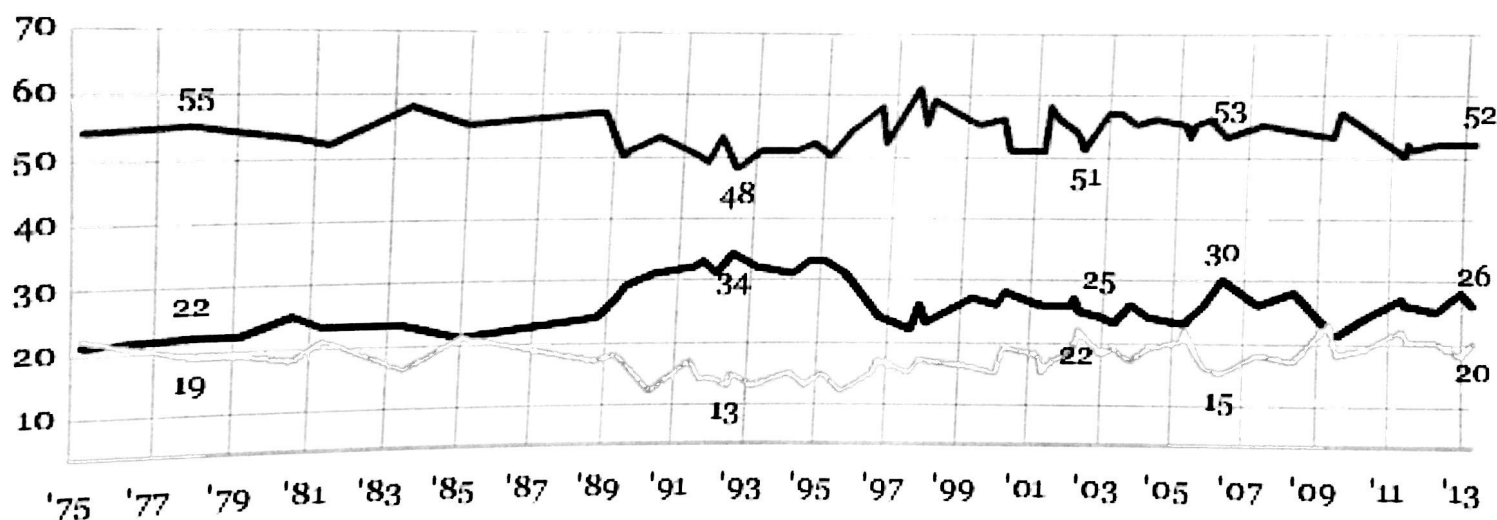

Abortion- Mirelia

Con:

- Any state were permitted to ban abortion under state and federal law
- the doctor or any other person performing this illegal act upon a woman would be held legally responsible, not the woman
- women should not have the ability to abort a human life because it would constitute murder
- It can also become more risky
- In my opinion I think

Do you think abortions should be legal under any circumstances, legal only under certain circumstances, or illegal in all circumstances?

■ % Legal under any circumstances ■ % Legal only under certain circumstances
 ■ % Illegal in all circumstances

GALLUP

Should the United States Continue to Build the Fence/Wall along the US-Mexico Border? - Oscar Ayala

Con -

- Bigger fence will only produce taller ladders and deeper tunnels.
- Undocumented workers come to the United States to escape economic hardship and political persecution.
- Experts have estimated the 35 to 55-foot wall to cost **\$25 billion**.
- What both countries need is better border infrastructure. Better bridges, more customs booths, more lanes.
- A border wall will not stop illegal immigration or smuggling and will not make the United States any safer. A border wall tells the world that we are a fearful nation, not a strong and confident nation, and that we are unable to address difficult issues in an intelligent and meaningful way.

Death Penalty

Con-

I am against the death penalty. I am against it because in my opinion I think that people shouldn't die in any circumstances. I believe this because everyone is human and shouldn't die for something that they did in their past. Here is some information about the death penalty...

- Support for the death penalty in the United States is at it's lowest since 1972
- Britain influenced America's use of the death penalty more than any other country
- 31 states allow the death penalty
